- *Staff member* reviews their monthly time statement through the Umoja Employee Self-Service portal.
- The *staff member* certifies and submits their monthly time statement through the Umoja Employee Self-Service.

Pre-requisites

It is very important that you keep an accurate and updated record of attendance for each month so that the report correctly reflects the leave taken and you can easily verify and certify the report.

Objectives

As part of the demonstration, we will show you:

- How to view your monthly time statement.
- How to certify and submit your monthly time statement.
- How to save and print your monthly time statement.

Scenario

At the beginning of each month Umoja sends an automated message to all Staff Members to notify the availability of the current Monthly Time and Attendance Certification for the previous month.

The Staff Member logs in the Employers Self Service Portal , reviews the absence record and, if consistent with the actual attendance, confirms the Monthly Certification.

- Review the Absence record for the month then scroll to the end to the page.

If you identify any discrepancies in the absence record, do not certify the Monthly Time and Attendance Certificate and take the following action(s):

- **Missing absence record:** close the page and submit an absence request for the type of absence and days taken.
- **Leave not utilized or curtailed:** If the leave was already approved, follow the instructions for deleting an approved record. Once your time manager has approved the deletion, you may re-enter the correct leave time taken as a new record and your manager will approve accordingly.

IMPORTANT: whenever you correct any discrepancies (either by adding missing entries or by fixing incorrect data) you will not be able to see the updates in the monthly certification. As indicated earlier, monthly certification reports are generated at the beginning of a month for the previous month. So any corrections made after the report is generated will be viewable in your quota balances but will not be dynamically updated in the monthly report, which will always remain static. That is why it is important to keep your attendance up to date by the end of each month.
